1. OVERVIEW OF THE METHODOLOGY

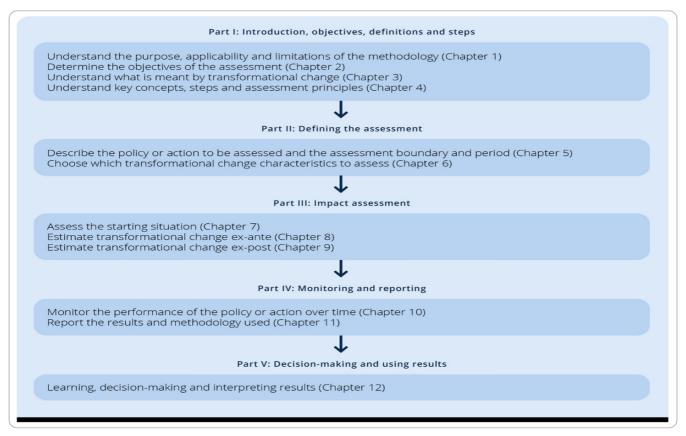

Figure 2: GHG emissions by source for the inventory year 2020

2. DEFINING THE ASSESSMENT (PART I & II)

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries,

table 1

General information	Assessment information
data	test value
Name of the policy/action/package assessed	test value
Person(s)/organisation(s) that did the assessment	test value
Date of the assessment	test value
Whether the assessment is an update of a previous assessment, and if so, links to any previous assessments	test value
Objective(s) of the assessment	test value
Intended audience(s) of the assessment	test value
Opportunities for stakeholders to participate in the assessment	test value
Principles on which the assessment is based	test value

table 1

General information	Assessment information
Individual policy/action or package of related policies/ actions? If a package is assessed, which policies and actions are included in the package?	test value
Is the assessment ex-ante, ex-post, or a combination of ex-ante and ex-post?	test value
Assessment boundary in terms of impacts covered	test value
Assessment boundary in terms of geographical coverage	test value
undefined	test value
Assessment period	test value
Intended audience(s) of the assessment	test value

Transformational Change Guidance for an example of filling out the template

Information	Description	Assessment information
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value

Transformational Change Guidance for an example of filling out the template

Information	Description	Assessment information
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value
test value	test value	test value

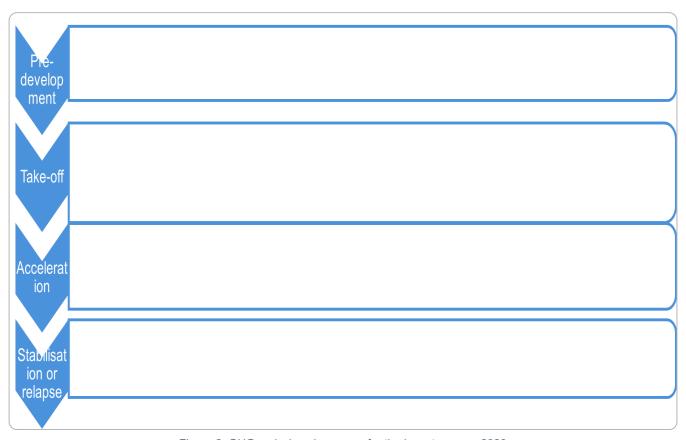

Figure 2: GHG emissions by source for the inventory year 2020

table 2

Time periods	Description of the vision for desired societal, environmental and technical changes	Assessment information
Long-term (≥15 years)	description 1	test value
Medium-term (≥5 years and greater than 15 years)	description 2	test value
Short-term (greater than 5 years)	description 3	test value

table 2

Barriers	Explanation	Characteristics affected	Barrier directly targeted by the policy or action
test barrier	test explanation	test characteristics_affected	test barrier_directly_targeted
test barrier	test explanation	test characteristics_affected	test barrier_directly_targeted
test barrier	test explanation	test characteristics_affected	test barrier_directly_targeted

table 2

Category	Process Characteristic	Description	Relevance	Justification
Technology	Research and development	test value	test value	test value
	Adoption	test value	test value	test value
	Scale up	test value	test value	test value
Agents	Entrepreneurs	test value	test value	test value
	Coalition of advocates	test value	test value	test value
	Beneficiaries	test value	test value	test value
Incentives	Economic and non-economic incentives	test value	test value	test value
	Disincentives	test value	test value	test value
	Institutions and regulations	test value	test value	test value
Norms	Awareness	test value	test value	test value
	Behaviour	test value	test value	test value
	Social norms	test value	test value	test value

table 2

Category	Outcome Characteristic	Indicators
Scale of outcome - GHGs	Macro level	test indicators
	Medium level	test indicators
	Micro level	test indicators
Scale of outcome – sustainable development	Macro level	test indicators
	Medium level	test indicators
	Micro level	test indicators
Outcome sustained over time - GHGs	Macro level	test score
	Medium level	test indicators
	Micro level	test indicators
Outcome sustained over time – sustainable development	Macro level	test indicators
	Medium level	test indicators
	Micro level	test indicators

3. IMPACT ASSESSMENT (PART III)

3.1 Assessment of the starting situation

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries,

table 2

Category	Process Characteristic	Indicators
Technology	Research and development	test indicators
	Adoption	test indicators
	Scale up	test indicators
Agents	Entrepreneurs	test indicators
	Coalition of advocates	test indicators
	Beneficiaries	test indicators
Incentives	Economic and non-economic incentives	test indicators
	Disincentives	test indicators
	Institutions and regulations	test indicators
Norms	Awareness	test indicators
	Behaviour	test indicators
	Social norms	test indicators

table 2

Category	Outcome Characteristic	Indicators
Scale of outcome - GHGs	Macro level	test indicators
	Medium level	test indicators
	Micro level	test indicators
Scale of outcome – sustainable development	Macro level	test indicators
	Medium level	test indicators
	Micro level	test indicators
Outcome sustained over time - GHGs	Macro level	test score
	Medium level	test indicators
	Micro level	test indicators
Outcome sustained over time – sustainable development	Macro level	test indicators
	Medium level	test indicators
	Micro level	test indicators

3.2 Ex-ante assessment

table 2

Category	Process Characteristic	Score	Rationale justifying the score	Indicator value at starting situation	Indicator value for expected transformation
Technology	Research and development	test value	test value	test value	test value
	Adoption	test value	test value	test value	test value
	Scale up	test value	test value	test value	test value
Agents	Entrepreneurs	test value	test value	test value	test value
	Coalition of advocates	test value	test value	test value	test value
	Beneficiaries	test value	test value	test value	test value
Incentives	Economic and non- economic incentives	test value	test value	test value	test value
	Disincentives	test value	test value	test value	test value
	Institutions and regulations	test value	test value	test value	test value
Norms	Awareness	test value	test value	test value	test value
	Behaviour	test value	test value	test value	test value
	Social norms	test value	test value	test value	test value

table 2

Category	Outcome Characteristic	Score	Rationale justifying the score	Indicator value at starting situation	Indicator value for expected transformation
Scale of outcome - GHGs	Macro level	test value	test value	test value	test value
Grids	Adoption	test value	test value	test value	test value
	Scale up	test value	test value	test value	test value
Agents	Entrepreneurs	test value	test value	test value	test value
	Coalition of advocates	test value	test value	test value	test value
	Beneficiaries	test value	test value	test value	test value
Incentives	Economic and non- economic incentives	test value	test value	test value	test value
	Disincentives	test value	test value	test value	test value
	Institutions and regulations	test value	test value	test value	test value
Norms	Awareness	test value	test value	test value	test value
	Behaviour	test value	test value	test value	test value
	Social norms	test value	test value	test value	test value

table 2

Category	Score	Rationale for scoring	Relative importance of category including rationale
Technology	test value	test value	test value
Agents	test value	test value	test value
Incentives	test value	test value	test value
Norms	test value	test value	test value

table 2

Category	Score	Rationale for scoring
Scale of outcome-GHGs	test value	test value
Scale of outcome – sustainable development	test value	test value
Outcome sustained over time – GHGs	test value	test value
Outcome sustainable over time – sustainable development	test value	test value

2.3 Ex-post assessment

table 2

Category	Process Characteristic	Score	Rationale justifying the score	Indicator value at starting situation	Indicator value observed
Technology	Research and development	test value	test value	test value	test value
	Adoption	test value	test value	test value	test value
	Scale up	test value	test value	test value	test value
Agents	Entrepreneurs	test value	test value	test value	test value
	Coalition of advocates	test value	test value	test value	test value
	Beneficiaries	test value	test value	test value	test value
Incentives	Economic and non- economic incentives	test value	test value	test value	test value
	Disincentives	test value	test value	test value	test value
	Institutions and regulations	test value	test value	test value	test value
Norms	Awareness	test value	test value	test value	test value
	Behaviour	test value	test value	test value	test value
	Social norms	test value	test value	test value	test value

table 2

Category	Outcome Characteristic	Score	Rationale justifying the score	Indicator value at starting situation	Indicator value observed
Scale of outcome - GHGs	Macro level	test value	test value	test value	test value
GHGS	Adoption	test value	test value	test value	test value
	Scale up	test value	test value	test value	test value
Agents	Entrepreneurs	test value	test value	test value	test value
	Coalition of advocates	test value	test value	test value	test value
	Beneficiaries	test value	test value	test value	test value
Incentives	Economic and non- economic incentives	test value	test value	test value	test value
	Disincentives	test value	test value	test value	test value
	Institutions and regulations	test value	test value	test value	test value
Norms	Awareness	test value	test value	test value	test value
	Behaviour	test value	test value	test value	test value
	Social norms	test value	test value	test value	test value

table 2

Category	Score	Rationale for scoring	Relative importance of category including rationale
Technology	test value	test value	test value
Agents	test value	test value	test value
Incentives	test value	test value	test value
Norms	test value	test value	test value

table 2

Category	Score	Rationale for scoring
Scale of outcome-GHGs	test value	test value
Scale of outcome – sustainable development	test value	test value
Outcome sustained over time – GHGs	test value	test value
Outcome sustainable over time – sustainable development	test value	test value

table 2

Category	Score	Rationale for scoring	Relative importance	Rationale for importance
Technology	test value	test value	test value	test value
Agents	test value	test value	test value	test value
Incentives	test value	test value	test value	test value
Norms	test value	test value	test value	test value

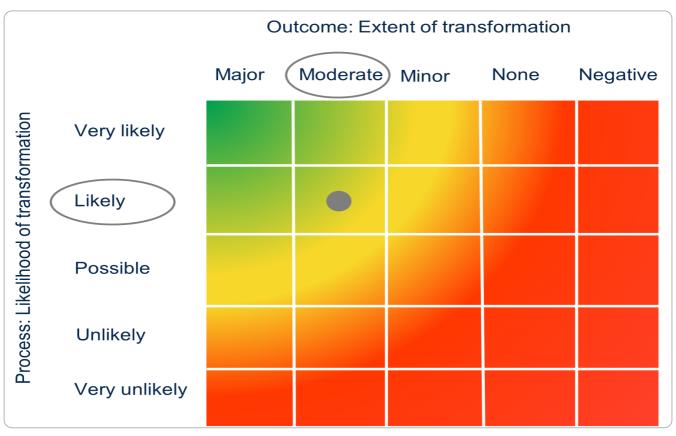

Figure 2: GHG emissions by source for the inventory year 2020

4. MONITORING AND REPORTING (PART IV)

table 1

Indicator	Type of data (quantitative/ qualitative)	Monitoring frequency and date of collection	Data source/ collection method	Responsible entity	Observed data (unit)
data	test value	test value	test value	test value	test value
data	test value	test value	test value	test value	test value
data	test value	test value	test value	test value	test value
data	test value	test value	test value	test value	test value

5. DECISION-MAKING AND USING RESULTS (PART V)

table 1

General information	Assessment information
data	test value
data	test value
